Attachment II

Distribution of work

Author	Responsibilities
Marcus Land	Marcus Land assisted in developing the Cooking page in the React web app focussing the recipe statistics. He was responsible for design- and UX-related tasks for the frontend and the presentations. Furthermore, he took part in the data preparation processes. He wrote Section 1, 6 and 7.
Andre Landgraf	Andre Landgraf was responsible for preparing and implementing the Alexa skill. Furthermore, he is the developer of the frontend (React web app) including continuous integration and AWS infrastructure. He took part in data schema design decisions and wrote Section 4 in this documentation.
Christian Münch	Christian Münch was developing the substitution algorithm git submodule and implemented the statistics page of the frontend. He was responsible for user interviews & evaluations. He wrote Section 2, 4.5 and 5.
Matthias Renner	Matthias Renner assisted in the internationalization and supported the implementation of the statistics page of the React web app. Furthermore, he took part in the data preparation processes. He wrote Section 1 and 3.
Andre Weinkötz	Andre Weinkötz developed the Node.js backend (including database) and administrated the AWS cloud infrastructure. Furthermore, he implemented the Alexa skill and designed the data schema including writing the data migration scripts. He wrote Section 3 (supporting), 4 and is responsible for the overall layout of this documentation.
